

***Workshop on Urban Integrated Environment Modelling and Services for Indian Cities on 19<sup>th</sup> February 2020, Rajib Bhawan, Bhubaneswar***

A one day workshop, on the implementation of the project on “Urban Integrated Environment Modelling and Services for Indian Cities”, was held on 19 February 2020. The Workshop aimed to improve the accuracy of urban weather forecasts, atmospheric dispersion and air quality, hydrology forecast, disaster management, daily operations & policy decisions, and create a science-based, HPC enabled urban & decision framework and thereby fulfilling sustainable smart city goals.
